

Ideal for servers and expensive equipment!

When you need to have the flexibility of cable, but want a heavy-duty solution, the Steel-Lok Cable System™ fits the bill. This kit features our patented rubber bonding feet and unlike any other products its size, the Steel-Lok plate has a bonding strength of up to 680 kgs! The plates are only 5.08 cm in diameter, allowing them to be mounted virtually anywhere on your equipment. The heavy-duty steel cable is 1.5m in length and is 8mm thick, coated to 11 cm to prevent scratching. Each end of the Steel-Lok cable is terminated with steel fittings. Additional accessory plates available in packs of two (#10404) to expand your kit. Keyed alike keying option available.

Features:

- All steel construction
- Patented bonding feet
- 618 kgs adhesive strength per plate
- 8mm thick cable, with smoke color vinyl coating
