

## The "road ready" notebook security kit!

The patented Qualtec Mobile Security Kit™ is the most ideal, cost effective notebook security kit available. This product works with all notebook computers and peripherals with or without a built-in security retention slot. For the person who is always on the go, whether you're in an office, hotel, car, or at home, you need to protect your notebook from theft.

Over **387,000** notebooks were stolen in the U.S. in 2000! Don't be the next victim, secure your system with the Mobile Security Kit™.

Simply lasso the cable around a secure anchoring point and then insert the lock into the small security slot built into your notebook. Should your computer or peripheral not have a security retention slot, Qualtec provides a small, low profile cast metal plate with this slot. When your ready to leave, unlock it, put it in your travel carrying pouch and you're off to your next stop. It is that simple!
